Identify

Find the most talented players with a skillset suitable for 7s. Players are often playing in RFU Academy programmes, BUCS Super Rugby and National League Rugby but not always. They are identified through our extensive network of personnel who have experience in the highest levels of the game.

Develop

Players are developed through playing in our 7s teams at Elite 7s Competitions throughout the UK and Europe. Our expert coaches impart their knowledge of the game to accelerate playing ability and prepare players for the next step in their playing journey.

Progress

Once players are ready they are progressed into our senior team, an international team or other professional rugby team. It is not unheard of for a player to progress through this pathway after 1 event, but the likelihood is it would take a season to prepare players for their next step.
